#### Introduction

This file includes collations of journals of significance for malacologists. In some cases, the entries are a summary based on data in papers that provide greater detail, including the sources of the indicated dates.

#### **American Malacological Bulletin, its predecessors, and other American Malacological Society Publications**

Based on:

E. V. Coan & A. R. Kabat, 2007. The Publications of the American Malacological Union/Society. American Malacological Bulletin 23(1/2): 1-10 [cites other partial collations]

“Before” means a library reception date, so actual publication date must be shortly prior. In the case of a library reception date in early January, a publication date in late December of the previous year is possible. Note: Annual Reports mis-numbered on publications by addition of one digit from actual meeting numbers 21-36.

The collation of these volumes is based on the “Dates du Publication” tables printed in the end matter of each volume. In volumes 48-53, the table precedes the “Table des Matières.” From volume 54 on, the table is the last item in the end matter, following the index. The tables have been verified against the text, making corrections as needed.

Dates of past issues generally given in the front or back matter of subsequent issues up to the late 1990s.

\*Given on p. 216 of vol. 20 as “June 11, 1987”, but changed to the above on p. ii of vol. 21.

\*\* Date of 28(1-2) not listed in subsequent issues. Smithsonian copy received on 5 January 1997, and MCZ (Harvard) copy received on 21 January 1997, consistent with a December 1996 publication date. Vol. 31-32 – Smithsonian copy received on 20 March 2003, and Univ. of Washington copy received on 19 March 2003.

Vol. 33-34 and 35-36 – Smithsonian copies received on 26 October 2006.

Vol. 37-38(1) – Library of Congress copy received on 8 April 2008.

Vol. 37-38(2) – Univ. of Washington copy received on 1 August 2008.

Vol. 39-40 – no date stamp information available (as of January 2016).

## The Nautilus (& Conchologists' Exchange)

Data chiefly from:

E. V. Coan & M. G. Harasewych, 1993. Publication dates of *The Nautilus*. The Nautilus 106(4): 174-180. See this article for additional information.

Dates for volume 3(1) to volume 71(3) were determined largely from H. Pilsbry's published bibliographies and are identified by an asterisk (\*) following the date.

Publication dates of issues prior to volume 13, as well as of volume 46(1), had been extrapolated based on the dates of receipt of these issues by several libraries. These dates, identified by a dagger (†), are estimates and may in some cases prove to be one or more days later than the actual date of publication.

From volume 46(2) to 100(4), publication dates for a volume were published in the "Notes and News" section of the first or second issue of the subsequent volume. Dates determined from these listings are marked by a double dagger (‡) following the date. However, exact dates for volumes 86-89 were not so noted and were determined from records on file in the editorial offices of the journal, identified by a section mark (§).

Beginning with volume 90, dates of publication were printed on the cover and/or title page of every issue.

Dates derived from the bibliography of W. H. Dall, identified by a number sign (#), supplement and/or corroborate the dating of the earliest issues. For issues that could not be dated in any other manner, the date of the library stamp of the Library of Congress (identified as LC), the National Museum of Natural History (identified as USNM), the Museum of Comparative Zoology, Harvard University (identified as MCZ), or the Boston Society of Natural History (identified as BSNH) is provided.

[Publication changed to one volume per calendar year.]

Page format changed to 8 x 10.5 inches. No further plates, text figures only.

Notes:

If information historically included in the text such as Literature Received or book reviews are printed in the front or back matter, these pages are recorded.

92(2): Following president of not recording inserted portraits without plate numbers in earlier volumes, the portrait of A. A. Olsson printed on verso if TOC [=ii] is not recorded.

Vols. 96-97: Start of issue paging inconsistent, counting or not counting Table of contents and verso in the pagination of issues. Vol. 101 similarly inconsistent.

Vol. 98-99 Numbers TOC and verso as i-ii (or iii-iv)

98(2): The verso of leaf 1 is numbered p. 55, recto of leaf 2, p. 56, etc., through the issue. The paging returns to normal with 98(3): 99.

Vol. 102 and following are consistent as to issue front matter not being counted in paging, except 131(2).

Vol. 116 begins experimentation with a volume title page and index being included as last leaves of issue 4.

Vol. 116, 117, and 118. A volume title page is included for these, abandoned thereafter.

Vol. 119 to present. An index (authors, new Taxa, reviewers) as the last leaf, but is not mentioned in the TOC of number (4) until vol. 122.

In vol. 122 and 123, the index leaf is numbered at the end of the page sequence.

Vol. 124 to 131. The index is referenced by page number in the TOC of issue 4, but the TP/index leaf is not numbered, and was not included in the paging of (4), but could be, e.g., 124(4): 155-[195] rather than of 155-193.

### Proceedings of the Malacological Society of London/Journal of Molluscan Studies

Dates mostly from the front matter and the following reference. Starting with 32(3), only a month date was provided, so these issues have to be dated on the last day of these months. More exact dating resumed with vol. 43, temporarily falling away with vol. 56 and permanently with vol. 69. With vol. 70, the front matter was abandoned altogether, leaving only the issue covers with month dates.

R. Winckworth, 1943. Dates of publication of the *Proceedings*. Proceedings of the Malacological Society of London 25(3): 131.
